Skills & Certifications

- **Certifications**:
  - GitHub: Career Essentials in GitHub Professional Certificate
  - Certiport: IT Specialist - Software Development
  - Docker Foundations Professional Certificate
  - IBM: Web Development Fundamentals
  - IBM: User Experience Design Fundamentals
- **Applications**:
  - Linux Operating Systems & Terminals
  - Microsoft Suite (i.e., Excel, Access)
  - Qt Development Framework
  - Autodesk Fusion 360
  - WordPress
  - Docker
  - KiCad
  - Unity
  - Git
- **Programming Languages:**
  - C#
  - Java
  - Python
  - Lua
  - SQL
  - LaTeX
  - HTML, CSS, & JavaScript
- **Communication Skills:**
  - Basic understanding of Spanish
  - Limited proficiency in Tamil
  - Limited proficiency in Telugu

Experience

Student Assistant – *UGA Dining Services (August 2026 – Present)*:

- Prepared and served meals as part of a team in a fast-paced, high-volume dining environment
- Monitored prepared food and ingredient supplies to ensure adequate stock throughout shifts

Code Coach – *theCoderSchool (May 2026 – August 2026)*:

- Led weekly summer camps teaching block-based and text-based Python, with a focus on hardware integration and control
- Prepared, sliced, and 3D printed student CAD designs

Web Developer – *Uplift Academy (March 2025– July 2025)*:

- Led development of a responsive website for a nonprofit tutoring association
- Implemented a custom back-end learning management system, employing collaboration through GitHub

Web Developer – *Swachh Devalaya (Jan 2025 – May 2026)*:

- Developed and managed a WordPress website for a local temple initiative
- Organized the site layout and kept content updated
- Transferred website management knowledge to owner for independent upkeep

Projects

Astrapad – *7-key Macropad on a Seeed Xiao RP2040***:**

- Developed a PCB in KiCad from open-source component schematics and hand-routed the traces
- Designed a 3D-printed case in Autodesk Fusion 360
- Wrote KMK firmware to control 16 LEDs, 7 keys, a rotary encoder, and a 128x32 OLED display

Post-Impact – *VR Game for Emory SPARC (placed top 5 in the state)***:**

- Led backend development connecting all minigames, including a central lobby for selecting a minigame at boot
- Built a scene-switching system that reassigned and handed off player controls across four minigames
- Managed the GitHub repo where breakout teams submitted minigames, and merged them into one game in Unity

Honors & Awards

- **CTAE Medallion –** *Forsyth County Schools (2026)*
- **AP Scholar with Distinction –** *College Board (2025, 2026)*
- **NLC Qualifier for Computer Applications –** *FBLA (2025)*: Efficiently and accurately completed advanced tasks across Microsoft Office Applications (Ex: Access, Excel)
- **National School Recognition Award –** *College Board (2025)*
- **National Cyber Scholarship Finalist –** *CyberStart America (2024)*: *Solved advanced cybersecurity challenges involving website network traffic analysis and virtual machine systems to extract information.*
